FROM THE CROWD TO THE BOOTH

My journey began in the crowd, **not behind the decks.**

For years I travelled the world chasing the sound, the energy and the culture of **electronic music.**

Burning Man (Nevada) • ULTRA Miami • Labryinto (Costa Rica)
Day Zero (Tulum, Mexico) • Monegros (Spain) • Secret Project (Portugal)
Echoes from Agartha (Cappadocia) • ADE Amsterdam • and many more...

On these events I had the chance to be close to world-class DJs,
to connect, talk and learn from them.

**During this journey, I have formed sincere friendships with
kind-hearted people and talented electronic music artists.**

The opportunity to exchange experiences, talk about music
and learn from them has become one of the most valuable
parts of my story.

Their energy, knowledge and passion shaped my vision
and pushed me forward.

All these experiences and the people behind them
led me to where I am today – creating my own sound,
on my own terms.

SELECTED

PERFORMANCES

Music has never been just about standing behind the decks. Every performance is the result of years of experience, travels and inspiration that I pour into my own sound.

GABRIEL INSINI

📍 NEPTUNE CLUB – BRATISLAVA

After Hugel's show for a crowd of 6,000, part of the audience moved to the official afterparty at the biggest club in the city. I played the closing set, scheduled to end at 6 AM when the club closes. But the energy on the dancefloor was unreal – people didn't want the night to end, so I extended my set by another hour.

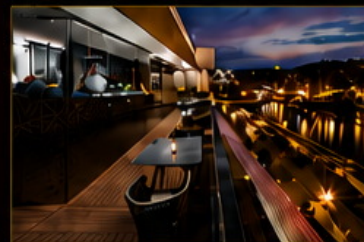

📍 SUBDECK BOAT PARTY – BRATISLAVA

A unique performance on a boat with an incredible atmosphere and a view of the city.

📍 LOVESTREAM FESTIVAL 2026 – BRATISLAVA

After the main headliner Robbie Williams, I take over to close the festival on the Coca Cola stage.

📍 CASABLANCA SKY BAR – PRAGUE

Exclusive rooftop venue in the heart of Prague. Luxury atmosphere, stunning views and music.

📍 TOKAIO ROOFTOP – IBIZA

On a beautiful rooftop with breathtaking views, great drinks and food, my music sets the perfect vibe.

... AND MORE TO COME
